## Professional Summary

A professional Electronics and Computer Engineering graduate, I have extensive knowledge in designing, developing and testing electronic systems and computer hardware and software. With my expertise in electronics and computer engineering, I am skilled in analyzing complex problems and developing innovative solutions to improve system performance, efficiency and reliability.

My experience includes designing and developing digital circuits, microcontroller programming, embedded systems, and communication protocols. I am also proficient in coding using programming language such as Python. Additionally, I have experience in designing printed circuit boards and testing electronic devices using various testing tools and techniques.

I possess strong analytical skills, critical thinking skills, and problem-solving abilities, which allow me to identify and resolve complex technical issues. I am a detail-oriented individual who can work independently or as part of a team and can effectively communicate technical concepts to stakeholders.

Overall, my academic and professional experience in electronics and computer engineering make me an excellent fit for any organization that requires a skilled and experienced professional in this field.

---

## Skill Highlight

- Brand-building strategies
- Marketing budget management
- Programme marketing
- Competitive and trend analysis
- Tactical planning
- Digital strategy development
- Strong time management
- Research
- Case study analysis
- Organized and efficient
- Category planning and management

---

## Work Experience

11/2019 to Current

Marketing Manager/Electrical Maintenance,

**Ezofag Technical Company - Ibadan, Nigeria**

- Supervised all marketing and planning activities to achieve company goals.
- Analyzed customer data and campaign performance to drive improvements.
- Responsible for the repairs on cooling & pumping appliances used commercially and domestically.
- Maintaining records and log of completed maintenance actions to meet minimum requirements for state inspectors.
- Provided technical field support for the installation and coupling of electrical components with various control systems.

- Improved product sales by 12% which led to a 20% increase in annual revenue.
- Leveraged strengths in cost-effective marketing management and vendor negotiations.
- Advised on marketing strategy with strong industry knowledge.

09/2015 to 09/2016

Engineering Trainee,

**The Nigerian National Petroleum Corporation (NNPC) - Ibadan, Nigeria**

- Delivered planned preventative maintenance to minimize production downtime.
- Learnt to complete and file workplace documentation.
- Completed quality assurance testing with multimeters and oscilloscopes.

11/2014 to 02/2015

Automation Trainee Engineer,

**Lafarge Africa PLC - Ewekoro, Abeokuta, Ogun State, Nigeria**

- Reviewed all test cases and test scripts for quality and purposely looked for additional areas to review.
- Assessed equipment for proper operation and freedom from defects.
- Developed robust technical solutions for improved automation efficiency.
- Tested, automated and white listed software to be used in secure environments.
- Provided technical input across development lifecycles, delivering timely, quality solutions.

---

## Education

Bachelor of Science, Electronics and Computer Engineering, 10/2020  
Lagos state university - Ojo, Lagos, Nigeria

National Diploma, Electrical Engineering, 06/2015  
The Polytechnic Ibadan - Eruwa, Oyo state, Nigeria

---

## Accomplishments

**President** - National Association of Polytechnic Engineering Students (NAPES)

- Renovated the faculty of engineering garden
- Administered the association of engineering students
- Held workshop seminar on entrepreneurship and empowerment.
