Work History

2020-03 - 2021-02

COVID-19 Vanguard (NYSC).

National Control of Disease Commission, Okada, Edo State

- Administered and interpreted COVID-19 symptom tests, including infrared temperature scans, nasal samples and surveys.
- Handled and stored potentially contaminated nasal, oral and blood samples to prevent compromise.
- Worked with pathologist to isolate abnormalities and narrow down likely diagnoses.
- Maintained strict aseptic fields when collecting biological samples, minimizing staff and patient infection risks.
- Assisted pathology team with skilled analyses by collecting nasopharynx

samples.

2019-08 - 2020-02

Community Health Intern.

Ogbomoso South Health Centre, Ogbomoso, Oyo state

- Helped vulnerable individuals navigate complex healthcare system.
- Targeted specific community groups with wellness and disease management information.
- Wrote and distributed informational materials on chronic diseases, infant mortality, substance abuse and other community health concerns.
- Administered immunizations or other basic preventive treatments.
- Contacted clients in person, by phone or in writing to ascertain compliance with required or recommended actions.

2017-08 - 2018-01

Community Health Aide (Industrial Training Program)

Onabayo Medical Centre, Ogbomoso, Oyo state

- Performed basic diagnostic procedures such as blood pressure screening, breast cancer screening or communicable disease screening.
- Transported or accompanied clients to scheduled health appointments or referral sites.
- Taught appropriate parenting behaviors to individuals or families.
- Exceeded goals through effective task prioritization and great work ethic.
- Quickly learned new skills and applied them to daily tasks, improving efficiency and productivity.
